

BOULANGER-FERRY AFFAIR.

THEY MAY FIGHT THEIR DUEL TO-DAY.

M. DELAFOSSE DENIES M. LAUR'S STATEMENTS AND SENDS HIM A CHALLENGE.

PARIS, July 31.—The duel between General Boulanger and ex-Premier Ferry will probably take place to-morrow. General Boulanger allows M. Ferry the choice of weapons, and pistols will probably be selected. The friends of General Boulanger take a serious view of the affair.

M. Ferry's seconds are absent from Paris, and he may be obliged to appoint others or postpone the duel until Tuesday.

M. Delafosse denies the truth of Deputy Laur's accusation to the effect that he (Delafosse) made overtures to General Boulanger to head a coup d'état in favor of the restoration of the monarchy. M. Delafosse has challenged M. Laur to fight a duel.

The Casanovic-Laur affair has proved a fiasco, Casanovic refusing to fight unless Laur publishes the names of the eighty-four generals who he alleged proposed a coup d'état to General Boulanger. Casanovic publishes articles daily ridiculing Laur.

PARIS, July 31.—It is now known that only half of the Panama Canal loan has been subscribed—just sufficient to enable the company to hold out another year.

MEXICO AND THE UNITED STATES.

BITTER ANTI-AMERICAN SENTIMENTS OF THE CLERICAL PARTY.

CITY OF MEXICO, July 31.—The *Tiempos* newspaper is responsible for the attacks upon Americans, although the editorial office is still in prison. It says that forty years have not been sufficient to extinguish the absorptionist views of the United States with regard to Mexico; that the same greedy and hypocritical tendencies exist to-day. It condemns what it terms the vile conduct of successive administrations in Mexico since 1847, with regard to that nation relatively weak as is Mexico, in comparison with the strength of a colossal neighbor. The *Tiempos* asserts that the United States counts on Mexico and that for management is altogether more favorable to American interests than to those of Mexico. As the leading organ of the Clerical party, *Tiempos* gives voice to the bitter animosity of that party in its bitter attacks upon the American Government and the United States. The *Tiempos* is a bitter enemy of the United States. It is evident that the policy of the Clerical party is to be hostile to Americans. On the contrary, the newspapers of the Liberal party recognize the cordial sentiments of the American people toward the United States. The administration in its policy of so-called Mexico and the United States through commercial ties that war between them will be rendered impossible.

ORDINATION OF A WISE AND LIBERAL PRIEST.

CITY OF MEXICO, July 31, via Galveston.—Father Gillow, who was recently promoted to the position of archbishop by the Church of Rome, with splendid ecclesiastical, in the presence of representatives of the best society of the Capital, among whom the distinguished clergyman has many friends. He is regarded as markedly liberal in his views. He is of English descent and was educated abroad. His diocese comprises the State of Oaxaca, where General Diaz and President Juarez were born.

BARILLAS'S DICTATORSHIP IN GUATEMALA.

CITY OF MEXICO, July 31, via Galveston.—The tone of the press here regarding the dictatorship of President Barillas in Guatemala is significant. The press generally is not in favor of the Government. The press will not permit the oppression of the constitutional liberties of the people of Guatemala without protest. Great satisfaction is expressed that General Barillas, the Mexican Minister to Guatemala, has shown himself equal to the emergency. The opponents in Guatemala of Barillas's dictatorship are undoubtedly in the majority. The press is in favor of Barillas, but in certain contingencies physical support may be sought. Should the Guatemala dictator attempt to break away from the Central American republic by force, Mexico, to be consistent, must interfere. The Government of Mexico is diplomatically noncommittal, but it is known that the Government is in sympathy with the friends of popular liberty in Central America.

JEFF DAVIS DENOUNCES PROHIBITION.

HE WRITES A LETTER THAT EXCITES A FORMER MEMBER OF HIS CABINET.

FORT WORTH, Tex., July 31.—Great surprise was created throughout Texas on the occasion of the Anti-Prohibition State barbeque here last week, when a letter was read from Jefferson Davis coming out strongly against the proposed amendment. The *Gazette* will print to-morrow a letter from Senator John H. Reagan, the ex-Prohibitionist-General of the Confederacy, in reply to Mr. Davis. The Senator says:

"I write not to complain, but to express my sympathy and sorrow on account of the letter you wrote our good friend Governor Lubbeck in opposition to the adoption of the proposed amendment to the State Constitution to prohibit the manufacture, sale and exchange of intoxicating liquors except for medicinal, medical, scientific and sacramental purposes. The letter was a masterpiece of stirring up on a question before within my memory."

After explaining how the issue is non-partisan the Senator says: "The amendment is sustained by many of the ablest, best and most trusted Democrats in the State, such as ex-Senator Maxey, Mr. Culberson, Mr. Lanham and Judge Hare. It is sustained by members-elect to Congress, such as Colonel Miller, a Democratic member of the last Congress. It is sustained by two-thirds of the newspapers of Texas, by not less than nineteen-twentieths of the 300 or 400 preachers of Texas, by probably ninety nine in every 100 of the women of the State, and it will in my opinion be voted for by more than 10,000 men of the Democratic party of the State. I am sure that tens of thousands of your true and true friends are grieved and pained by your letter. We believed we could carry the State against the combined influence and efforts of the manufacturers of whiskey and beer, the liquor dealers' associations of St. Louis, Chicago, Louisville, Cincinnati, New York, Philadelphia and elsewhere and against the use of the vast sums of money they have sent to Texas to employ and pay speakers, and to buy newspapers and corrupt the ballot and delude the people. We believed we could carry it against the saloonkeepers, professional politicians and a number of good men like our friend Governor Lubbeck, but the tall tale power of the great name is now being paraded against prohibition and your letter is being read and applauded by every saloon-keeper and drunkard in Texas to-day. It will cost a sum which many of us deem of the greatest importance many thousands of votes and we fear may defeat the amendment and give the endorsement of the people to the liquor traffic with the grief, sorrow and crimes which go with it. You object to this amendment because the world is governed too much by the majority."

The Senator proceeds at length to answer Davis's personal attack upon the Confederacy and his friendship as follows:

"The publication of public duty compels me, regretfully indeed, to advise you that I shall authorize the publication of this letter in vindication to this limited extent of my views and the views of the thousands of good people of Texas, who think as I do on this question."

CAREFUL NOT TO VIOLATE THE TREATY.

PORTLAND MERCHANTS GETTING CREWS OF FISHERMEN WITHOUT DIFFICULTY.

PORTLAND, Me., July 31.—Since the departure of the Portland fishing fleet, some weeks ago, little news has been heard from the American fishermen on the Canadian fishing banks, and the rather uncertain monetary life was suddenly broken a few days ago when news was received that the Canadians had been up to their old tricks in seizing American vessels without any real cause or provocation. Notwithstanding all the reports spread by Canadian officials to the effect that the fish are scarce this year out of the three-hundred boats, the fishermen are doing well. One of the members of the firm of W. B. Jordan & Co. said to-day:

"We have instructed our captains to keep clear of the Canadian coast, not to fish within three miles off shore and not to land on the coast. We have no objection, however, a vessel being compelled by stress of weather to run into port, then she is not to remain there any longer beyond the amount of fuel and provisions necessary to enable us to get away. We have informed our captains that we should discharge any one of them found within a Canadian harbor."

When the schooner Harrington was seized by Captain Quigley, of the cruiser Trenton, we paid our fines, under protest of course, and that really was the last we ever heard of the case. I don't suppose our case was ever brought up. One day in the early part of the year we received the amount of our fine from the Customs office on Fisheries in Montreal informing us that the amount deposited by us had been turned over to the Crown, and that the schooner was returned to us.

The schooner Cushman which was seized last year was owned by the firm of E. G. Willard, of Portland. Charles Burleigh, the manager of E. G. Willard's fishing estate here, said:

"When our captains called from Portland this season we instructed our captains to keep clear of the Canadian coast and not to attempt fishing within three miles limit. We paid our fine of \$400, and after a long wait, over to the Crown. You see 'The Crown' was ready and happy to receive our money. There is one thing that we should be careful to mention, and that is, the Canadian fishermen came from Italy, brought not less than fifty. They feared lest all intercourse between the United States and Canada would be cut off. When President Cleveland said that this matter was not merely a local matter, and that at the same time it was a national one, the fishermen of the United States were alarmed. One of the fishermen who came down from Shelburne this summer and whom I afterward engaged on board of our vessel, told me that the Canadian fishing vessels were compelled to lie up for the season, as they had some doubt as to how to find themselves of the fish caught."
